Enterprise Cyber Risk Simulation Report

Simulation Profile

Company Name:	Demo Corp
Industry:	Technology
Annual Revenue:	\$115,300,000.00
Employee Count:	11070
Critical Asset:	Source Code / IP
Targeted Attack:	Ransomware
Prepared For:	IT Manager

Risk & Financial Impact

Cyber Readiness:	★★★★■
Risk Score (0-100):	38 (Lower is better)
Estimated Financial Loss:	\$3,922,506.00 - \$7,845,012.00

Attack Story Timeline

Day 1: Initial Compromise

An attacker exploits an unpatched vulnerability in an outward-facing VPN gateway.

Day 3: Lateral Movement

The malware spreads silently across the internal network, mapping servers and endpoints.

Day 5: Payload Deployment

Encryption payloads are simultaneously executed on all infected hosts.

Day 7: Operations Halted

Business operations completely freeze, and a ransom demand is displayed on all screens.
